

Section C7

System test and fault diagnosis Contents

	Page
Introduction	C7 - 3
Connector and cable colour codes	C7 - 3
Theoretical wiring diagram	C7 - 5
Initial test	C7 - 7
Sensor chains	
Wiring diagram	C7 - 11
Temperature v resistance graphs	C7 - 13
Upper system fault-finding charts	C7 - 15
Lower system fault-finding charts	C7 - 19
Servo fault-finding charts	C7 - 23
Fan fault-finding charts	
Fans inoperative in all situations	C7 - 31
Fans inoperative in LOW, AUTO and HIGH	C7 - 33
Fan speed does not vary	C7 - 35
Flaps and actuators fault-finding charts	
Mode flap and actuator	C7 - 37
Lower quantity flap and actuator	C7 - 39
Recirculation flaps and actuator	C7 - 41
ACU switch wiring diagram and testing	C7 - 45
Refrigeration system	
Compressor thermal fuse fault diagnosis	C7 - 47
Voltage stabiliser fault diagnosis	C7 - 49
Upper servo test and calibration procedure	C7 - 53
Lower servo test and calibration procedure	C7 - 57
Test procedure for recirculation, lower quantity, mode change, fan inhibit and rear window demist circuits	C7 - 61
