

Anti-lock braking system electrical locations

Mineral oil hydraulic system colour coding and component location - Right-hand drive cars

- | | | | | | | | |
|---|--|---|---|----|--|----|---|
| A | Feed to rear brakes and levelling (System 1) | D | Levelling return (System 1) | 1 | Modulator (anti-locking brakes) | 17 | Levelling valve |
| B | Deceleration conscious pressure valve fed rear brakes (System 1) | E | Feed to front brakes (System 2) | 2 | Front hydraulic pump | 18 | Bleed point - Suspension struts |
| C | Low pressure return from levelling and rear brakes (System 1) | F | Front brakes (System 2) and directly fed rear brakes (System 1) | 3 | Front leading brake caliper (twin cylinder) | 19 | Rear brake caliper (four cylinder) |
| | | G | Low pressure return from front and rear brakes (System 2) | 4 | Front hydraulic accumulator | 20 | Rear brake caliper bleed point |
| | | | | 5 | Rear hydraulic pump | 21 | Restrictor |
| | | | | 6 | Front trailing brake caliper (twin cylinder) | 22 | Gas spring and Suspension strut |
| | | | | 7 | Hydraulic mineral oil reservoirs | 23 | Anti-locking brakes warning panel |
| | | | | 8 | | 24 | Anti-locking brakes electronic control unit (ECU) |
| | | | | 9 | Hydraulic pressure warning switches with bleed points | | |
| | | | | 10 | Upper distribution valve | | |
| | | | | 11 | Lower distribution valve | | |
| | | | | 12 | Deceleration conscious pressure limiting valve ('G' valve) | | |
| | | | | 13 | Priority valve | | |
| | | | | 14 | Filter block assembly | | |
| | | | | 15 | Minimum pressure valve | | |
| | | | | 16 | Seepage return hose | | |
